FROM
TREES
LIKE
THESE

The Red Pine Trees in the top picture were only three years old and three to six inches tall when planted in 1917. In sixteen years they have grown twenty-five to thirty feet and many of them are over six inches in diameter. Here is one at the right that is almost seven inches.

Planting Trees Is Easy—Watch These Men!

First man with trees in left hand and shovel in right is ready to make the hole. Second man is inserting shovel straight into the ground. Third man has inserted the shovel and has the handle pushed ahead forming opening for tree back of shovel. Fourth man, while keeping shovel pushed ahead with his foot, has taken one tree from the bundle carried in his left hand and is putting it in hole. Fifth man has removed shovel and is closing opening by stamping each side of it with his heel. On cleared land such as shown in this picture, one trained man can easily plant 2,000 trees a day.

Why Our Trees Are Guaranteed To Live —

BECAUSE they have been transplanted every two years.

BECAUSE the transplanting gives to the tree the proper root growth to feed the tops.

BECAUSE they have been started in the finest soil best adapted for giving them a healthy, vigorous foundation.

DON'T buy trees by size. The country has been flooded with literature stressing the size of trees that can be bought for little money. No mention is made in such advertising of the age of the trees or of how many times they have been transplanted.

DON'T BE FOOLED—know these three things about the Evergreen Trees you buy: their age, their size, and the age or ages at which they were transplanted. For best results buy only trees that have been transplanted at least every two years.

WE INTEND TO STAY IN THE NURSERY BUSINESS. WE WANT FRIENDS AND SATISFIED CUSTOMERS.

WE OFFER YOU ONLY THE BEST TREES — TREES THAT WILL LIVE

Our Guarantee

Ninety per cent of all trees sold at our regular prices as quoted in our Spring 1934 price list (except seedlings) are guaranteed to live. If you will notify us before October 1, 1934, of the number over 10% which do not live, replacement will be made. Shipment will be made by express collect.

We do our part. YOU must do yours to make your trees live. Get them promptly from the express company. Unpack and plant immediately. DO NOT LET THE ROOTS DRY.

2-1 indicates a 3 yr. tree transplanted between its 2nd and 3rd year. 2-2 indicates a 4 yr. tree transplanted between its 2nd and 3rd year. 2-1-1 indicates a 4 yr. tree transplanted between its 2nd and 3rd year and again between its 3rd and 4th year.

* White Pine may be shipped into all states (and the District of Columbia) except Arizona, California, Colorado, Nevada, New Mexico, Utah and Wyoming.

TERMS: CASH WITH ORDER, NO DISCOUNTS. All prices F.O.B., FRYEBURG, MAINE.

Two hundred fifty trees of any one kind and size at the thousand rate. For less than 250 of one kind, ask for retail price list.

No extra charge for boxes or packing. All orders shipped by express unless otherwise specified.

ORDER YOUR TREES TODAY—if you want to be sure of getting them. If all the government, state and municipal planting projects being planned now are carried out, there will be a shortage of many sizes and varieties before the planting season starts.

Four hundred and twenty-seven thousand trees from this block have been delivered to the government in Michigan, Pennsylvania and New Hampshire, since this picture was taken last fall.
